For Yara International ASA, Norway
Product of Norway

Use in accordance with recommendations of a qualified individual or institution such as, but not limited to, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.

FOUR SEASON RESPONSE:

- Nitrate nitrogen for fast greening in cool weather.
• Ammonium nitrogen for supplemental feeding.
• High water solubility phosphate for vigorous new growth.
• Sulfate of potash for maintenance of vigorous turf in high traffic areas and to aid in turf resistance to disease and weather stress.

Advantages for the Landscape Professional

- 1. Turf Royale® 21-7-14 is a homogenous, prilled dust-free fertilizer, with the proper 3-1-2 ratio of N, P2O5 and K2O to meet the demands of established turf and ornamental feeding.
2. Turf Royale® 21-7-14 is a high analysis fertilizer (47.1% plant nutrients). It contains two types of nitrogen: Nitrate for quick response and ammonium nitrogen for supplemental feeding.
3. Turf Royale® 21-7-14 prills are free-flowing for even application and accurate calibration.

Suggestions for Use

- 1. Apply when foliage is dry and soil is moist.
2. Apply with well maintained equipment for even distribution and optimum results.
3. Water immediately after application to wash foliage.

Turfgrass

Preplant: Prior to seeding, plugging, or laying of sod, broadcast 6 pounds of Turf Royale® per 1,000 square feet and cultivate into topsoil. After planting, irrigate to keep moist until the turf is established.

Coverage: 8,300 sq. ft./50 lb bag.

Established Turf: Broadcast 5 pounds of Turf Royale® per 1,000 square feet. Apply irrigation to dissolve fertilizer and incorporate into turfgrass rooting zone.

Coverage: 10,000 sq. ft./50 lb bag.

Overseeding: Broadcast 4 pounds of Turf Royale® per 1,000 square feet. Water immediately after seeding.

Broadleaf Groundcover

At the beginning of the growing season and again halfway through, broadcast 4-5 pounds of Turf Royale® per 1,000 square feet. Wash any fertilizer prills off the foliage immediately to prevent spotting.

Established Trees & Shrubs

Shrubs and Evergreens: Sprinkle 1 cup of Turf Royale® 21-7-14 evenly around the drip line and work into the top 1" of soil. Water thoroughly.

Excellent for use in Landscaped areas, Turf Royale® supplies nitrogen, phosphate and potash in the low salt sulfate form. Annuals or perennial ornamentals, trees, shrubs, ground covers and bedding plants all can benefit from the 3-1-2 ratio.
