PROCOTE[®]

Micronutrient Fertilizer Coatings

GOODBYE, DUSTY BLENDS. HELLO, SMOOTH FERTILIZER HANDLING!

Tired of dealing with dusty, clumpy dry blends? YaraVita PROCOTE is here to make fertilizer handling easier, cleaner, and more efficient.

Using **proprietary suspension technology**, PROCOTE coats each granule of your dry fertilizer with essential micronutrients - without the mess.

Why growers prefer PROCOTE:

- ✓ **99% less dust** - no more micronutrient loss from powdery blends
- ✓ **Improved flowability** - better blending, better spreading
- ✓ **No segregation** - micronutrients stay where they're needed
- ✓ **Cleaner equipment** - less buildup, smoother operation

It's not just about nutrition; it's about **handling smarter**. With PROCOTE, you get the micronutrients your crop needs without the hassle.

Let's talk about upgrading your fertilizer program.
