**YaraVita PROCOTE®**  
Micronutrient Fertilizer Coatings

# improved yield & ROI

## Higher Yields and Return on Investment

Growing the best possible crop requires micronutrients. Across most regions and crops, **applying YaraVita PROCOTE has resulted in higher yields and even better return on investment.**

PROCOTE's revolutionary coating technology allows even and efficient micronutrient distribution on the field without dust and product lost, ensuring crops get every bit of the nutrition you paid for.

Learn more about YaraVita PROCOTE's proven performance, specific yield results and more.
